Administrators only)

- Required Bidder Qualifications to Purchase Project: The foreclosure sale is limited to governmental entities and 501 (c) 3 non-profits that have long-term experience with affordable housing in the State of Wyoming.
 - i. It is the objective of the Department's multifamily foreclosure process to transform troubled and distressed multifamily properties into viable, long-term affordable rental housing resources. To accomplish this objective, the Department will only award a HUD-foreclosed property to a High Bidder that is an eligible bidder and has the financial capacity and demonstrated experience (approximately five (5) years) of successfully owning, managing and transforming distressed and troubled multifamily properties as viable, low-income housing resources.
 - ii. The Department has the discretion to evaluate, starting with the High Bidder and proceeding in descending order, if necessary, the bidder's eligibility to bid, experience, qualifications and capacity to purchase the Project based on a review of the documentation described below, information independently obtained and verified by HUD, and the Post-Bid Document Submittals required herein. The documentation must demonstrate that the bidder is eligible to bid, owns (or has owned) and is successfully managing and operating (or has successfully managed and operated) properties of similar size and characteristics (including problematic complexities) as the Project being sold. The documentation will be used by HUD to determine whether the bidder is eligible, has the financial capacity and demonstrated experience to acquire and successfully transform the Project into a long-term, viable rental housing resource.

 The review and approval of the Previous Participation Certification (Form HUD-2530) is a requirement for the purchase of the Project. However, Previous Participation Certification approval is only one aspect of HUD approval of the bidder's qualifications.
 - iv. Based on HUD's review of the documentation submitted, as well as any additional information independently obtained and verified by the Department, HUD will determine whether the bidder is eligible to bid, has the requisite experience, qualifications and financial capacity to purchase the Project. This determination is within HUD's sole and absolute discretion. If HUD determines that the bidder is not eligible to bid, does not have the experience, qualifications and/or financial capacity to purchase the Project, HUD will reject the bid and proceed to the next highest bidder pursuant to the terms of the Invitation.
 - v. In the event that HUD rejects a bid, HUD will return the bidder's earnest money deposit, provided the bidder has not failed to meet time limits required to submit documentation, or made any misrepresentation or material omission(s) in the bidder's eligibility or submission of documentation. If the bidder fails to properly submit all required documentation within the required time limit or HUD determines that the bidder misrepresented his or her eligibility, experience, qualifications, or financial capacity, the Earnest Money Deposit will be forfeited and retained as liquidated damages. HUD may seek any and all additional remedies.
 - vi. HUD may require the High Bidder to obtain the services of a qualified multifamily project management

- ii. If the high bid is rejected due to HUD's determination that the High Bidder is not eligible to bid or qualified to purchase the Project, HUD will notify the High Bidder in writing;
- iii. If HUD rejects the High Bidder, HUD may in its sole discretion elect to contact the Second High Bidder, and/or succeeding bidders as bidders withdraw or do not qualify, to purchase the Project. If contacted by HUD, the Second High bidder or succeeding bidder will be offered the opportunity to purchase the Project and will be given twenty-four (24) hours to provide evidence of eligibility to bid, submit the earnest money deposit and execute the Acknowledgment, and thereby will be deemed as the High Bidder. HUD will review the bidder's eligibility and Post- Bid Document Submittals, which must be submitted within the same timeframes detailed in Section 4 of this Invitation beginning from the date the Acknowledgment is executed, in order to determine if the bidder is qualified to purchase the Project:
- iv. HUD's notification of rejection due to lack of eligibility to bid or qualifications, if applicable, shall be deemed to be given when mailed to the individual that executed the Acknowledgment; and
- v. The written rejection of the bid will be made as promptly as possible and generally within thirty (30) days after the date of the Foreclosure Sale.

 - b. If the bid amount is unacceptable, the bidder's Earnest Money Deposit will be refunded.
 - c. If, during the review of the High Bidder, it is found that the High Bidder has made any misrepresentation or material omission(s) in the bidder's eligibility to bid or submission of documentation, the Earnest Money Deposit will be forfeited.

HUD may elect to discuss Project management plans after submission of the Post-Bid Document Submittals by the High Bidder. Attachment K - 24 CFR Part 5

§ 5.703 Physical condition standards for HUD housing that is decent, safe, sanitary and in good repair (DSS/GR).

These standards address the major areas of the HUD housing: the site; the building exterior; the building systems; the dwelling units; the common areas; and health and safety considerations.

- (a) Site. The site components, such as fencing and retaining walls, grounds, lighting, mailboxes/project signs, parking lots/driveways, play areas and equipment, refuse disposal, roads, storm drainage and walkways must be free of health and safety hazards and be in good repair. The site must not be subject to material adverse conditions, such as abandoned vehicles, dangerous walks or steps, poor drainage, septic tank back-ups, sewer hazards, excess accumulations of trash, vermin or rodent infestation or fire hazards.
- (b) *Building exterior*. Each building on the site must be structurally sound, secure, habitable, and in good repair. Each building's doors, fire escapes, foundations, lighting, roofs, walls, and windows, where applicable, must be free of health and safety hazards, operable, and in good repair.
- (c) *Building systems.* Each building's domestic water, electrical system, elevators, emergency power, fire protection, HVAC, and sanitary system must be free of health and safety hazards, functionally adequate, operable, and in good repair.
- (d) Dwelling units.
 - (1) Each dwelling unit within a building must be structurally sound, habitable, and in good repair. All areas and aspects of the dwelling unit (for example, the unit's bathroom, call-for-aid (if applicable), ceiling, doors, electrical systems, floors, hot water heater, HVAC (where individual units are provided), kitchen, lighting, outlets/switches, patio/porch/balcony, smoke detectors, stairs, walls, and windows) must be free of health and safety hazards, functionally adequate, operable, and in good repair.
 - (2) Where applicable, the dwelling unit must have hot and cold running water, including an adequate source of potable water (note for example that single room occupancy units need not contain water facilities).
 - (3) If the dwelling unit includes its own sanitary facility, it must be in proper operating condition, usable in privacy, and adequate for personal hygiene and the disposal of human waste.
 - (4) The dwelling unit must include at least one battery-operated or hardwired smoke detector, in proper working condition, on each level of the unit.
- (e) Common areas. The common areas must be structurally sound, secure, and functionally adequate for the purposes intended. The basement/garage/carport, restrooms, closets, utility, mechanical, community rooms, day care, halls/corridors, stairs, kitchens, laundry rooms, office, porch, patio, balcony, and trash collection areas, if applicable, must be free of health and safety hazards, operable, and in good repair. All common area ceilings, doors, floors, HVAC, lighting, outlets/switches, smoke detectors, stairs, walls, and windows, to the extent applicable, must be free of health and safety hazards, operable, and in good repair. These standards for common areas apply, to a varying extent, to all HUD housing, but will be particularly relevant to congregate housing, independent group homes/residences, and single room occupancy units, in which the individual dwelling units (sleeping areas) do not contain kitchen and/or bathroom facilities.
- (f) Health and safety concerns. All areas and components of the housing must be free of health and safety hazards. These areas include, but are not limited to, air quality, electrical hazards, elevators, emergency/fire exits, flammable materials, garbage and debris, handrail hazards, infestation, and lead-based paint. For example, the buildings must have fire exits that are not blocked and have hand rails that are undamaged and have no other observable deficiencies. The housing must have no evidence of infestation by rats, mice, or other vermin, or garbage and debris. The housing must have no evidence of electrical hazards, natural hazards, or fire hazards. The dwelling units and common areas must have proper ventilation and be free of mold, odor (e.g., propane, natural gas, methane gas), or other observable deficiencies. The housing must comply with all requirements related to the evaluation and reduction of lead-based paint hazards and have available proper certifications of such (see 24 CFR part 35).
- (g) Compliance with state and local codes. The physical condition standards in this section do not supersede or preempt state and local codes for building and maintenance with which HUD housing must comply. HUD housing must continue to adhere to these codes.
